Brazil / Natal -RN 13/08/1997 Brazilian

EDUCATION

Postgraduate Certificate in Cloud Computing

Unopar University (Lato sensu)

02/2024 - 11/2024 Mossoró, Brazil

Associate Degree in Cybersecurity

Unopar University (Online)

10/2020 - 06/2023 Mossoró, Brazil

Postgraduate Certificate in Data Science

Unopar University (Lato sensu)

03/2026 - 10/2026 Mossoró, Brazil

TRAINING / COURSES

Data Science IBM

Coursera

SUMMARY

Passionate IT Support professional transitioning into Data Science and Machine Learning, bringing a strong technical foundation alongside self-directed expertise in Python, and predictive modeling.

Skilled at solving problems, quickly picking up new technologies, and turning data into meaningful insights. Known for resilience, adaptability, and a growth mindset, with a genuine drive to contribute within collaborative, data-driven teams.

EXPERIENCE

IT - Help Desk Technician

08/2016 - 12/2026

Home for Poor Children - philanthropic institution, Brazil

Mossoró, Brazil

- Dedicated, detail-oriented IT professional with a solid foundation in hardware troubleshooting, software maintenance, and user support.
- Currently expanding into Data Analysis and Data Science to bring more comprehensive, data-informed solutions to technical problems.

Freelance

2018 - Present

<https://remotive.com/>

- Cleaned and analyzed datasets using Python (Pandas, NumPy) to identify trends and support client decision-making.
- Built and evaluated predictive models, including classification algorithms using machine learning techniques to solve specific business problems.
- Delivered clear, visual reports and dashboards to communicate findings to non-technical stakeholders.
- Managed full project lifecycle independently, from client requirements gathering to final delivery.

INTERESTS

Innovation & Continuous Upskilling

Passionate about data and machine learning. I love diving into complex problems, learning from experienced teams, and picking up new ML frameworks along the way.

Driven by Curiosity

I've always had a passion for computers, figuring out how they work, fixing what's broken, and constantly finding new ways to grow. That same drive is what pulled me toward data science, and it's what I look for in a company: room to keep learning and solving real problems.
